

MATH 1342 – Elementary Statistics – Week 16: Putting It All Together and Final Exam

Dec 8 – 10 | Review: Putting It All Together – From Sampling to Hypothesis Testing (Tue Dec 8) • Final Exam – Thu Dec 10, online (Blackboard, proctored)
| Fall 2026 · Section 036 · TTh 6:00–7:20 PM (DIL)

Module Objectives	Instructional Materials	Learning Activities	Assessments	Tools
1. Choose the correct procedure among one- and two-proportion z, one- and two-sample t, paired t, chi-square, ANOVA, and regression, and carry out a complete six-step hypothesis test. (CLO 8) 2. Carry out and interpret a complete confidence interval or hypothesis test, using simulation or theoretical distributions as appropriate. (CLO 6, CLO 8) 3. Interpret results in context, including what the study design allows the conclusion to claim about generalization and causation. (CLO 1)	Review Slides: Putting It All Together (with answer key and no-answers versions) All Section Slides and Interactive Lectures (Weeks 1–15) StatKey	Participation: One Complete Test with a Partner – 10 problems, one per pair (narrator/writer roles), 5-minute presentations; extension: build the matching 95% CI	Final Exam – Thu Dec 10 (Blackboard, proctored, 2 hours, cumulative; no retake)	Lecture Slides (course website) StatKey Zoom (live class) Assessment Tool in Blackboard Respondus LockDown Browser and Monitor

CLO 1 Explain the use of data collection and statistics as tools to reach reasonable conclusions. **CLO 6** Describe and compute confidence intervals. **CLO 8** Perform hypothesis testing using statistical methods.
