

MATH 1342 – Elementary Statistics – Week 16: Putting It All Together and Final Exam

Dec 7 – 9 | Review: Putting It All Together – From Sampling to Hypothesis Testing (Mon Dec 7) • Final Exam – Wed Dec 9, online (Blackboard, proctored) | Fall 2026 ·
Section 019 · MW 7:30–8:50 PM · RRC Room 8210

Module Objectives	Instructional Materials	Learning Activities	Assessments	Tools
1. Choose the correct procedure among one- and two-proportion z, one- and two-sample t, paired t, chi-square, ANOVA, and regression, and carry out a complete six-step hypothesis test. (CLO 8) 2. Carry out and interpret a complete confidence interval or hypothesis test, using simulation or theoretical distributions as appropriate. (CLO 6, CLO 8) 3. Interpret results in context, including what the study design allows the conclusion to claim about generalization and causation. (CLO 1)	Review Slides: Putting It All Together (with answer key and no-answers versions) All Slides and Interactive Lectures (Weeks 1–15) StatKey	Participation: One Complete Test with a Partner – 10 problems, one per pair (narrator/writer roles), 5-minute presentations; extension: build the matching 95% CI	Final Exam – Wed Dec 9 (Blackboard, proctored, 2 hours, cumulative; no retake)	Lecture Slides (course website) StatKey In class Assessment Tool in Blackboard Respondus LockDown Browser and Monitor

CLO 1 Explain the use of data collection and statistics as tools to reach reasonable conclusions. **CLO 6** Describe and compute confidence intervals. **CLO 8** Perform hypothesis testing using statistical methods.
