MATH 1342 – Elementary Statistics – Week 16: Putting It All Together and Final Exam

Dec 8 – 10 | Review: Putting It All Together – From Sampling to Hypothesis Testing (Tue Dec 8) • Final Exam – Thu Dec 10, online (Blackboard, proctored) | Fall 2026 · Section 036 · TTh 6:00–7:20 PM (DIL)

Module Objectives	Instructional Materials	Learning Activities	Assessments	Tools
1. Choose the correct procedure among one- and two-proportion z, one- and two-sample t, paired t, chi-square, ANOVA, and regression, and carry out a complete six-step hypothesis test. (CLO 8) **2.** Carry out and interpret a complete confidence interval or hypothesis test, using simulation or theoretical distributions as appropriate. (CLO 6, CLO 8) **3.** Interpret results in context, including what the study design allows the conclusion to claim about generalization and causation. (CLO 1)	Review Slides: Putting It All Together (with answer key and no-answers versions) All Section Slides and Interactive Lectures (Weeks 1–15) StatKey	Participation: One Complete Test with a Partner – 10 problems, one per pair (narrator/writer roles), 5-minute presentations; extension: build the matching 95% CI	Final Exam – Thu Dec 10 (Blackboard, proctored, 2 hours, cumulative; no retake)	Blackboard StatKey Zoom (live class) Assessment Tool in Blackboard Respondus LockDown Browser and Monitor

CLO 1 Explain the use of data collection and statistics as tools to reach reasonable conclusions. **CLO 6** Describe and compute confidence intervals. **CLO 8** Perform hypothesis testing using statistical methods.
