MATH 1342 – Elementary Statistics – Week 1: Introduction and the Structure of Data

Aug 24 – 26 | Introduction: What Is Statistics For? • 1.1 The Structure of Data | Fall 2026 · Section 019 · MW 7:30–8:50 PM · RRC Room 8210

Module Objectives	Instructional Materials	Learning Activities	Assessments	Tools
1. Describe statistics as the process of collecting, describing, and analyzing data, and judge a striking result by how likely it is to occur by chance alone. (CLO 1, CLO 4) **2.** Distinguish a sample from a population and explain how a non-representative sample biases an estimate. (CLO 1) **6.** Compute and compare the mean and median of a small dataset and explain how an outlier affects each. (CLO 2)	Introduction Slides: What Is Statistics For? (Day 1)	Day-1 class data activity: collect everyone's age, then find the mean, median, mode and boxplot together; compare the class median to the U.S. median age		Blackboard
3. Identify the cases and variables in a dataset presented as a table. (CLO 2) **4.** Classify a variable as categorical or quantitative. (CLO 2) **5.** Identify the explanatory and response variables in a research question. (CLO 1)	e-Text: 1.1 The Structure of Data Interactive Lecture: 1.1 The Structure of Data Slides: 1.1 The Structure of Data	Participation: Variables – identify cases, variables and variable types	Online Homework: 1.1 The Structure of Data (due Sun Aug 30, 11:59 PM)	WileyPLUS StatKey Blackboard
Course resources and assessments of earlier weeks (not aligned to this week's objectives)	START HERE: Welcome; Syllabus; Textbook and Wiley Course Resources; Online Tutoring; College Policies & Student Support Services	Participation: Syllabus – course tour and expectations		Content Area in Blackboard

CLO 1 Explain the use of data collection and statistics as tools to reach reasonable conclusions. **CLO 2** Recognize, examine, and interpret the basic principles of describing and presenting data. **CLO 4** Explain the role of probability in statistics.
